OUTDOOR DECKING COLLECTION

Click here to place your
order on Whatsapp

Our range allows you to transform your outdoors to create stunning entertaining areas instantly and effectively.

The key advantage is that these tiles are linked together in a non-permanent fashion so that they can be easily fixed or removed.

The tiles are made of wood species like Merbau, IPE and Cumaru that are durable and highly weather resistant.

Specifically designed for areas such as balconies, patios, porches, courtyards, or pool and spa surrounds, the decking tiles can be laid on any existing solid structure.

For rooftops, decking tiles are the perfect solution as they do not impact the waterproofing membrane. Unlike traditional deck installations, the tiles simply float over the substructure, leaving the membrane perfectly in tact.

MERBAU STRIPS

Merbau wood is from Indonesia & Papua New Guinea. It is a reddish brown timber containing natural oils that makes it strong, tough & durable and restricts shrinking, cracking and splitting. When properly treated and oiled, Merbau decking can last for at least half a century.

SIZES

75mm x 15 mm
100mm x 15 mm
125mm x 18 mm

IPE STRIPS

IPE is from Central & South America is a rich dark brown hardwood with a high concentration of tannic acid making it resistant to rot and decay. Having the same fire rating as steel & concrete, it is expensive and called the Rolls Royce of hardwood, but needs low maintenance. The proven strength, durability and scratch resistance like steel makes IPE the toughest lasting decking wood, having a lifespan of 75 plus years.

SIZES

90mm x 18mm

THERMOWOOD STRIPS

A Gradual thermal modification reduces the stresses caused by high temperature on the wood improving the insulation properties making it a perfect decking material.

SIZES

26mm x 116mm
26mm x 140mm

BILINGA STRIPS

SIZES

100 x 15 mm

140 x 25 mm

115 x 22 mm

A LEGACY OF TRUST

Established in 1977, Jalaram Timber Depot started with a simple mission – to preserve the quality and craft in harvesting the finest wood from around the world and to bring it to India in its most suitable form to find a place in your home or work environment.

Today we are proud to have over 40 years of expertise across not just veneers, but also wooden flooring, plywood and solid surfaces. Jalaram Timber Depot has consistently set the standard for these products in India and we're happy to say that we continue to do so every day.

Our extensive range of veneers are closely evaluated and curated from around the world, using the best of local materials as well as international woods.

Much like timber that needs the best conditions to grow, we have nurtured strong relationships and built a reputable network of timber suppliers across the globe, which gives us access to the highest quality of materials.

We also lead the market in solid surfaces – Jalaram Timber Depot was the first to introduce Dupont™ Corian® Solid Surface in India, among several other brands that we are proud to partner with.

We are the authorized distributor for the Western Region for Parador – a premium wooden flooring brand from Germany. Our plywood range is curated and certified; any brand endorsed by Jalaram Timber Depot meets the top quality standards since we go through stringent testing processes and set the quality bar for the industry.

Jalaram Timber Depot has its own veneer manufacturing unit in Kerala with over 400 varieties of veneers, which allows us to monitor and maintain a certain level of quality.

Spread over 6 acres at Vettickal, Mulanthuruthy in Ernakulam District, our state-of-the-art factory is equipped with a fully fledged slicing and peeling facility and kiln drying chambers.

The factory also houses our showroom that carries a large variety of wood, veneers and flooring products.

The Veneer Studio at Central Mumbai is designed to showcase our collection of veneers, floorings, solid surfaces, deck & cladding, kiln dried timber, live tree slabs and plywood. We're ready to welcome you.

SUSTAINABILITY & OUR FOOTPRINT

At Jalaram Timber Depot, we take our responsibility to the planet seriously. Without exception, all our raw materials are sourced from sustainable forests which are FSC and PEFC certified. In the case of imported logs and veneers, we ensure they are also sourced from FSC and PEFC certified producers, thus ensuring the ecosystem we engage with shares similar values that are important to us.

FSC and PEFC certifications are carried out with regular auditing and inspections to ensure the sustainability criteria are strictly carried out by independent authorities.

In the case of logs sourced from India, our main purchases are from Government Forest Department auctions or from plantations (replanted) which are controlled by permissions by the concerned Government Forest Department.

The Forest Department allows only collection in their forest of dead and fallen logs. Thus, we ensure non exploitation of natural products and the best use of available resources in a sustainable way.

QUALITY CERTIFICATION

By controlling the entire process, from the sourcing of raw materials to the finished product and customer service, we've created a process that brings in a high degree of transparency and trust within the business cycle.

Over the years, we have developed certification standards that ensure that our customers get the most superior quality of products each time. The Veneer Quality Certification ensures that when you select any veneer from our catalogue, it has been created to last for a generation.

VENEER SHOWROOM

935, Bhagwandas Wadi, Behind Kismet
Talkies, Off Veer Savarkar Marg,
Prabhadevi, Mumbai 400025
