| AUTOCLAVE-TREATED WOOD | ★ | ★ | | | | | | |

Rubio Monocoat is created using the next-generation UV Stabilizer technology. It colours and protects your wood, in just a single coat. The natural ingredients of Rubio Monocoat's oil generates a molecular reaction with the uppermost cellulose fibres of the wood, while the accelerator ensures quick dry, quick cure and superior protection, giving a marvellous finish.

Rubio Monocoat Oil Plus does not contain water; its components are mainly natural products. It is also resistant to blackening and can withstand extreme weather conditions. It is available in a variety of colours and a wide range of options for indoor and outdoor usage.

ADVANTAGES

COLOURS AND PROTECTS THE WOOD IN ONE LAYER

ENVIRONMENT FRIENDLY: 0% VOC (VOLATILE ORGANIC COMPONENTS)

GIVES A NATURAL 'LOOK AND FEEL' TO THE WOOD

LOW CONSUMPTION: 1 LITRE COVERS UP TO 30 TO 50 SQ. MT. (250-300 SQ. FT.)

EASY TO REPAIR AND MAINTAIN

APPLICATION ON INTERIORS
FLOORS
BATHROOMS
WORKTOPS AND FURNITURE
DOORS AND STAIRS

APPLICATION ON EXTERIORS
WOODEN DECKING
CLADDING
GARDEN HOUSES
CHALETs

COLOUR OPTIONS - The colours are fade resistant. This means that the treated surface will change in colour mostly due to the ageing of the wood.

Rubio Monocoat is available in multiple colour options, traditional as well as modern shades.
